

Step 1: To determine the correct graph, we need to analyze the properties of the...

Step 2 ~ Step 11

Step 12: Option A: This graph shows an exponential function that is decreasing and a logarithmic function that is increasing...

Step 13: Option B: This graph shows an exponential function that is increasing and a logarithmic function that is decreasing... Step 14: Option C: This graph shows an exponential

function that is increasing and a logarithmic function that is increasing... Step 15: Option D: This graph shows an exponential

function that is decreasing and a logarithmic function that is decreasing...
